## step 3

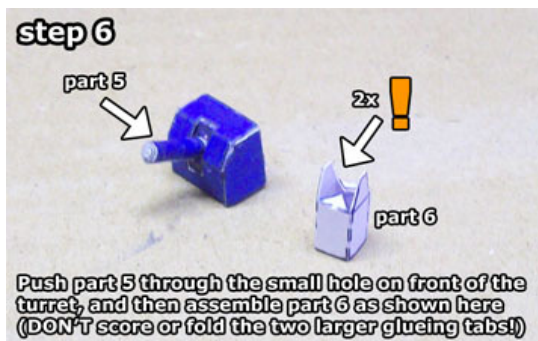

## step 4

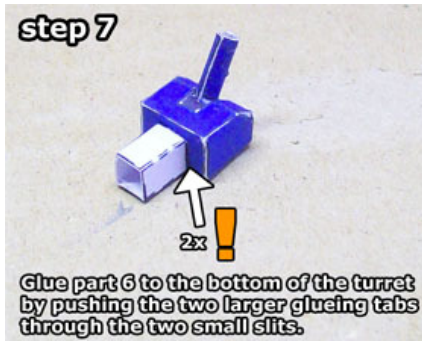

## step 5

## step 6

## step 7

## step 8

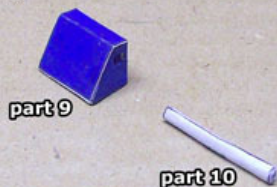

Push part 6 through the holes on the hole, and then glue on part 7 from underneath/inside the hull. DON'T glue part 7 to the hull itself!

## step 9

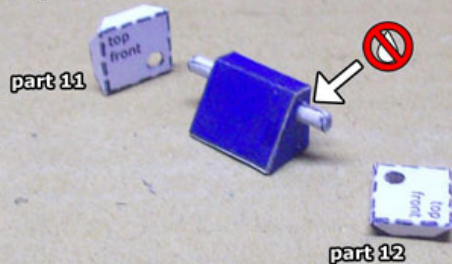

Close the bottom of the hull with part 8 as shown here.

## step 10

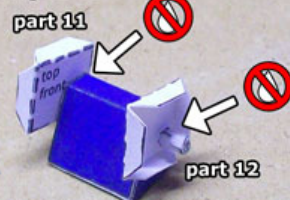

Cut out the two holes and assemble part 9, and then roll up part 10 as tight as possible.

## step 11

Push part 10 through the holes on part 9, but DON'T use any glue! Then cut out parts 11 and 12...

## step 12

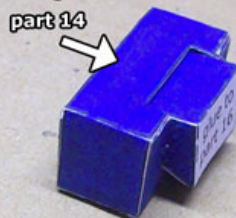

...and then slide them over part 10 as shown here (DON'T use any glue!)

## step 13

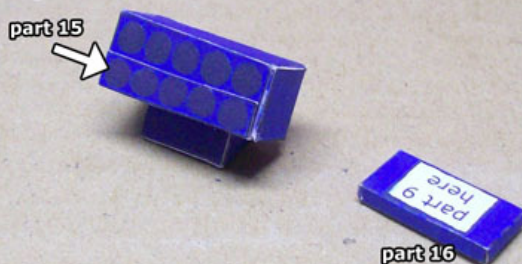

Glue part 13 around parts 11 and 12 (the sloping side of part 9 is the front).

## step 14

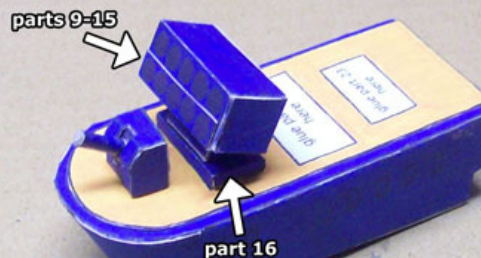

Then close the back with part 14.

## step 15

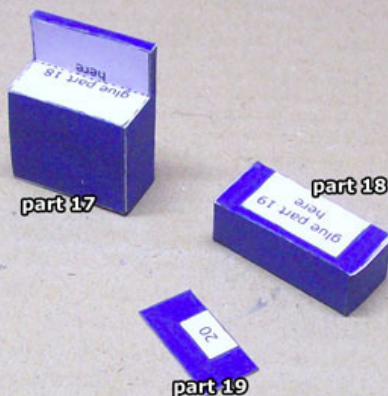

Glue part 15 to the front of part 13 and assemble part 16.

## step 16

Glue parts 9-15 on top of the hull as indicated.

## step 17

Cut out and assemble parts 17-19 as shown here...

### step 18

part 17-19

...glue them together and then on top of the hull as indicated.

### step 19

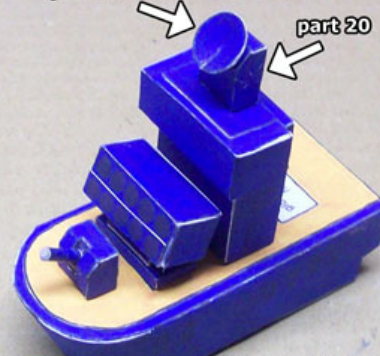

Assemble part 20 and glue together parts 21 (hollow/concave) and 22 (convex).

### step 20

parts 21-22

part 20
